

## Recommended For:

Packaging  
Food Production

The Transpositor successfully creates right-angle product transfers without skewing.

### **Handle Anything**

The Transpositor has the ability to handle almost any type of product.

### **Positive Driving**

Sprocket-driven chain which eliminates tracking issues.

### **Ultra-Low Maintenance**

No lubrication is required to run the Transpositor making it virtually maintenance free.

### **Very Small Footprint**

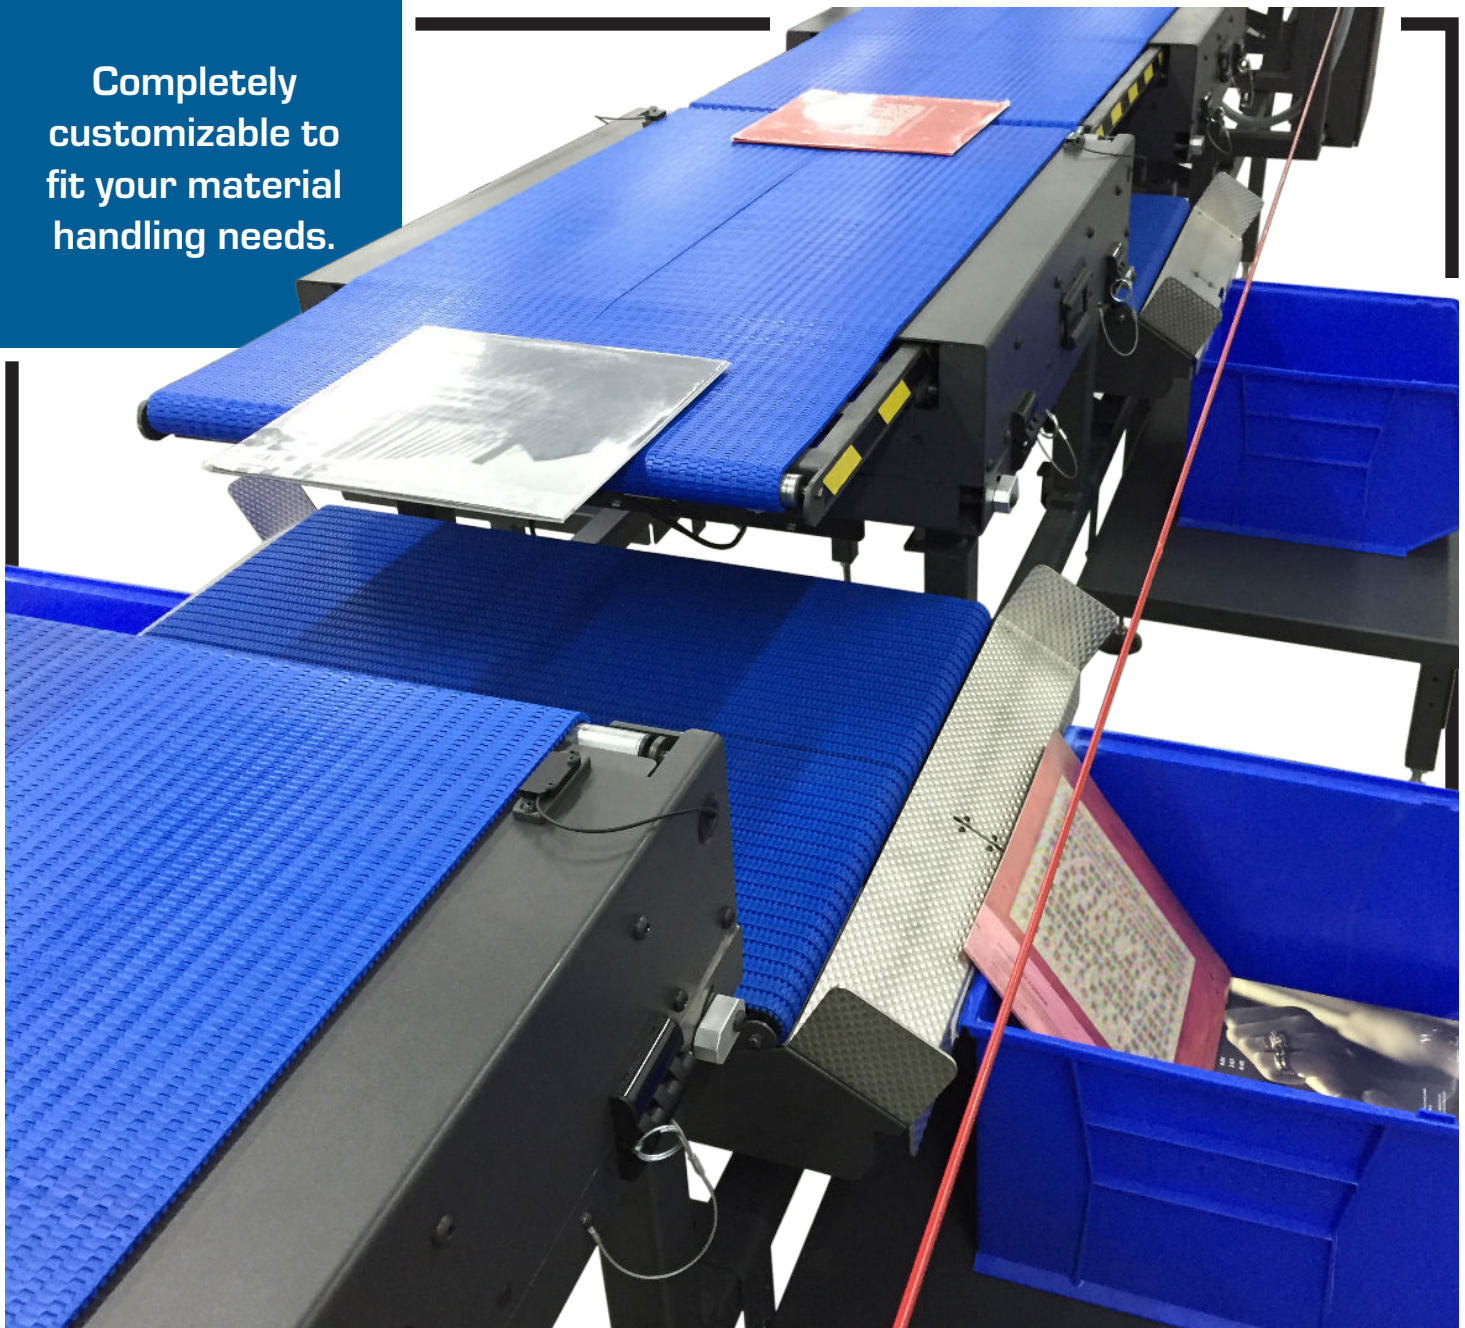

The configurations are flexible giving the Transpositor the smallest footprint possible.

### **Efficient**

Safe, low-noise running off of 24 volts.

# TRANSPOSITOR

Completely  
customizable to  
fit your material  
handling needs.

Our Transpositor provides right-angle product transfers and allows product lanes or patterns to be built across the width of receiving conveyors. The transfer function uses our sprocket-driven Microspan Chain.
